

IS1056

L-Asparagine Antibody - Rabbit Polyclonal

Validated by direct and competitive ELISA, this rabbit polyclonal antibody recognizes L-Asparagine at 1/10 000 working dilution, while displaying no significant cross-reactivity with competitors such as L-Glutamine and L-Aspartate. Combined with the [STAINperfect immunostaining kit A](#), this antibody allows direct L-Asparagine imaging in various types of samples (cell cultures, tissue sections, whole mounts).

Clonality	Polyclonal antibody
Host	Rabbit
Reactivity	Reacts with all species
Eligible samples	Cell cultures, tissue sections, whole mounts
Staining procedure	STAINperfect immunostaining kit A
Format	50µL (approx. 40 tissue sections)
Storage	Store at +4°C for short term (1-2 months). Aliquot and store at -20°C for long term. Avoid repeated freeze / thaw cycles
Immunofluorescence (IF)	Dilute antibody with the antibody diluent provided in the STAINperfect immunostaining kit A . Use at 1/250 -1/1000 dilution. Follow the STAINperfect protocol suited to your sample (Cell cultures, Whole mounts, Tissue sections)
Comments	Optimal working dilutions must be determined by the end-user
Restrictions	For research use only
